ENVIRONMENT AND OCCUPATIONAL HEALTH AND SAFETY POLICY

With the principle of continuous improvement in Aluminium Tube, Laminated Tube and Aluminium Aerosol production and support activities, PERFEKTÜP Environment and OHS policy has been established within the framework of the following principles in order to reduce and prevent negative impacts on the environment and employees;

- To comply with national and international legal regulations, laws/legislation and other obligations related to Environment and OHS,
- To minimise pollution at source by preventing industrial pollution in all its activities,
- To prevent accidents and diseases that may arise from all activities by reducing them,
- To encourage recycling by keeping waste under control and minimising it,
- To keep the risks related to occupational health and safety under control, to carry out mitigating works, to create healthy environments,
- In case of any capacity increase or process change, the surrounding community will be informed about land use and necessary permits will be obtained from local authorities and forest lands will not be used except for legal permits.
- To control and minimise the consumption of natural resources and energy and to use natural resources with the least impact on the environment and to use them efficiently,
- To contribute to continuous improvement by establishing and reviewing environmental and OHS goals and objectives,
- To contribute to the improvement of Environment and OHS processes, to organise trainings in order to raise awareness on Environment and OHS. To ensure that Environment and OHS awareness is adopted as a philosophy of life in co-operation with our employees and stakeholders.

For this purpose, our company will provide the necessary support for the continuous improvement and strengthening of the management systems we have established and will encourage the participation of its employees in this direction.

CHAIRMAN OF THE BOARD

Livio MANZINI
