QUALITY AND PRODUCT SAFETY POLICY

PERFEKTÜP aims to be a customer-oriented aluminium tube, laminated tube and aluminium aerosol manufacturer preferred by the world's most admired brands, to meet customer expectations, to provide acceptable profit share to its partners, to strengthen the integrity with other business partners, to respect the environment and society, to provide long-term employment opportunities for its employees and to be a preferred employer.

In the processes of achieving, executing, reviewing and developing this goal, PERFEKTÜP will follow and implement the legal regulations of the countries of the world, our country and the organisations to which it is affiliated, the legal conditions related to product safety, use advanced technology and modern management tools, always be at world standards, and reflect operational excellence to all our business processes. Quality will increase competitiveness and productivity and maximise company profitability.

PERFEKTÜP will produce 'safe products' by observing consumer safety.

For this, in the light of our values, responsibilities and authorities are delegated to the place and persons where the work is done. Our human resources will be continuously developed 1ort his purpose, and our company will provide all necessary support for employees to fulfil this goal.

It will implement Product Safety Culture Plans to disseminate this culture by properly training our internal and external stakeholders to understand product safety rules and activities. It will produce products free from counterfeiting and adulteration, always taking into account the dangers/risks to the authenticity of the product, and will ensure dynamic control and continuity of the systems by closely monitoring the risks.
